
KEEP YOUR PARKY

IN TOP CONDITION

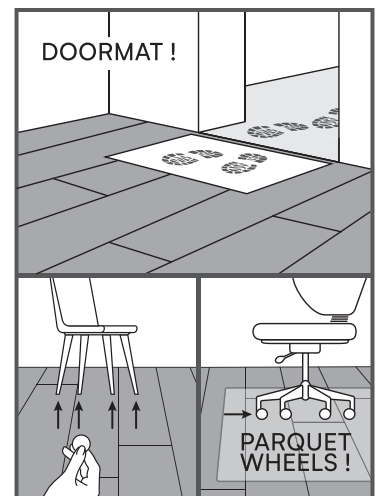

PARKY[®]
wood flooring's finest

Want to safeguard Parky's sustainable soul?
Regular maintenance will improve its lifespan
and protect the appearance of your floor.

WELL BEGUN IS HALF DONE !

For an optimal protection of your Parky floor, put:

- A doormat if the floor is installed at the entrance.
- Pieces of felt under the chairs.
- Parquet wheels under office chairs and a protection mat under the chair.

MAINTENANCE

PARKY CLEANER

Cleans your floor without damaging the lacquer. Our Parky Cleaner has been specially developed to remove dirt and protect the wood. Dilute the cleaner with water and clean the floor with a damp cloth. BEWARE! Avoid excessive use of water.

Parky floors are very durable — and well-protected thanks to our Woodshield. Accidents happen, however! If your floor gets damaged, our products can help restore it.

REPAIR PENS

Easily repair minor scratches. The box contains one colour pen and one lacquer pen. These help you conceal the scratches and restore your floor's protection for that particular spot.

REPAIR WAX

Did your floor get a dent that damaged the lacquer and the wood below it? Our Repair Wax fixes the damage and protects your floor from any invasive moisture. It includes seven wax blocks, a wax carving pen and a spatula.

Did one of your planks happen to suffer significant damage? Don't worry! You can easily replace a single plank thanks to our handy click system. Consult your distributor or replace the plank yourself.

You can find all the instructions for repairing and replacing a plank at par-ky.com/en/downloads.
